

CORALWATCH and the GBR NEEDS YOUR HELP

Learn about corals,
contribute to reef conservation,
**reach out &
inspire others**

Call for CORALWATCH AMBASSADORS

'Team players can make a difference'

WHAT'S IN IT FOR YOU

- Be part of a citizen science community that cares for corals and reef conservation.
- Help collect data and teach others CW monitoring methods.
- Learn to interpret CW data and share results.
- Learn about what's happening to our reefs and how you can deliver positive messages to inspire audiences to act.
- Ability to educate others the importance of reefs.
- The opportunity to network with other ambassadors & citizen science programs worldwide.
- Enjoyment of being actively involved in the program.
- Receive FREE intensive training and onward support by the professional CW team.
- International recognition and acknowledgment of your efforts on CW webpage and social media.
- A certificate upon completion of the workshop.
- Enhanced resume with gained skills and experience.
- Reference letter from CoralWatch.
- Chance to win the Yearly CW Ambassador AWARD!

YOUR CONTRIBUTION

- Engage in community events (schools, festivals, workshops, conferences or social clubs).
- Collect and upload Coral Health Chart data and inspire others.
- Report/liase on outreach activities and experiences to CW mentor.
- \$50 one-off administration fee.

ELIGIBILITY

- Confident swimmer/snorkeler.
- Queensland resident.
- Available to attend free intensive training workshop on Heron Island from 24-28 May 2017.
- Available in volunteer capacity for one year from June 2017.
