

Atlas (/) **New funds for coral reef field engagement**

May 16, 2019

Allen Coral Atlas team

The Paul M. Angell Family Foundation is the second funding partner for Allen Coral Atlas, by providing a grant to the National Geographic Society and The Wildlife Conservation Society. With this new grant, we are even closer to our goal of mapping all coral reefs by 2020.

The grants will enable field engagement projects to expand the Atlas. As more areas are added to the Atlas, the ultimate impact on reefs is to scale the mapping and monitoring work behind this global source of coral information.

Field engagement in Heron Island, Australia.

“Conservation NGOs currently track hundreds of coastal monitoring sites around the world, using field methods that could be adapted to inform the Allen Coral Atlas. WCS, in partnership with NGS,
