The Coral Health Chart is based on the actual colours of bleached and healthy corals. Each square on the Chart corresponds to the concentrations of symbiotic algae which live in the coral tissue.

INSTRUCTIONS

For each coral, use the Coral Health Chart to record:
- darkest and lightest colour scores
- coral type

Boulder (BO)      Branching (BR)        Plate (PL)         Soft (SO)

Visit our website to see worldwide data for reefs and compare coral health scores between reefs and over time.

Virtual Reef

This virtual reef shows you different coral types and the difference between bleached and healthy corals. You can use the Coral Health Chart to measure the health of these corals.
